**IOWA WESLEYAN COLLEGE PARTNERS WITH X-WIRES BROADBAND**

**Cedar Rapids, IA**—X-Wires Broadband announced today that it has partnered with Iowa Wesleyan College in Mount Pleasant, Iowa, to provide the liberal arts institution's Internet bandwidth and student network management beginning August 1, 2008.

“We feel that partnering with X-Wires will give us the resources to provide top-tier solutions and scalability to our students that we couldn't replicate at the same cost,” Dr. Kit Nip, Associate VP and CIO, Iowa Wesleyan College.

Iowa Wesleyan College recently began researching an increase in its main Internet connection because the increasing demand in Internet from its students and faculty had exhausted the current resources. The College's IT department had implemented several solutions designed to help reduce the saturation of the current Internet connection with only limited success.

Iowa Wesleyan College contacted X-Wires after hearing about X-Wires' success at other colleges and universities. Upon learning X-Wires could provide increased speeds, expand support services, and lower support costs, Iowa Wesleyan College chose X-Wires to provide a dedicated high-speed Internet connection for academic purposes to each student in the residence halls. Users will also have the option to upgrade their individual Internet connections to higher speed entertainment or gaming packages up to 3.0 Mbps for an additional cost. In addition to the Internet connection, X-Wires will provide 24x7 phone support to these users and is capable of remote virus or spyware removal.

“X-Wires provides dedicated bandwidth to each individual residential student. Students will no longer need to share their traffic with their peers,” Mike Brown, President of X-Wires Broadband.

About X-Wires: X-Wires Broadband is a division of Dynamic Broadband. The company was founded in 2000 and is based out of Cedar Rapids, Iowa. The X-Wires division specializes in providing Internet services to complex user environments such as: colleges, apartment communities, hotels, and retirement communities. Dynamic Broadband is an Internet service provider and IT consulting firm serving over 2500 customers in the Midwest.

About Iowa Wesleyan College: The mission of Iowa Wesleyan College is to prepare students to succeed in a changing global environment. Iowa Wesleyan is a four year

liberal arts college providing quality individualized learning experiences that combine the development of the intellect with adaptive life skills. The college is affiliated with the United Methodist Church with which it shares a commitment to spiritual values, social justice and human welfare.

Iowa Wesleyan College is the oldest private coeducational liberal arts college west of the Mississippi River. Founded in 1842, the College is the only four-year institution of higher education in southeast Iowa.
